

Carlos Esquivel

Software Engineer who believes in the power of diversity in the workplace. A willing participant for change and growth on the personal and professional level.

PROJECTS

Lumi Cue — *Node.js, Alexa SDK, REST API, Asana*

– Smart Home Alexa Application that sets household timers on your Alexa device. Application uses the Iot Smart bulbs to show timer progress and timers finish in the form of pulsing lights.

Airbnb Clone — *Python3, SQLAlchemy, SQL, Flask*

A project that involved working with various technologies to provide a way for displaying data on a Webpage through the use of Object Oriented programming concepts to abstract data from the user and provide an application similar to Airbnb.

EDUCATION

Holberton School, Tulsa — *Software-Engineer student*

June 2020 – April 2022

Full-Stack Software Engineering | Student Tutor

Project-based curriculum that focused on different technologies for full-stack development.

The use of projects that cover concepts from the front-end to the back-end.

EXPERIENCE

Holberton School, Tulsa — *Student Tutor*

January 2021 – Present

Coordinating with staff to help accommodate students gaps in knowledge by providing one-on-one sessions with a dozen students.

Delivered guidance in group settings to study groups by ensuring all students' concerns were addressed.

MetroShoe Warehouse, Tulsa — *Sales Associate*

June 2019 – 2020

Communicated with customers and team to give a comfortable experience in store.

Worked to get sales of store up by increasing conversion rates

Kept a consistent Conversion rate to keep stores conversed above a minimum.

Tulsa, Oklahoma
